

## Foam Trailers

**A necessary resource  
where it matters most**

- Increase firefighting capabilities
- Mobile fire protection
- Model options available
- Rugged construction

Foam Trailers provide mobile fire protection for flammable liquid hazards typically found in such areas as refineries and tank farms, chemical processing plants, truck and rail car unloading facilities, marine terminals and for other flammable liquid spill hazards.

**Increase your firefighting capabilities**

Built to customers' specifications, CHEMGUARD Mobile Foam Trailers substantially increase the firefighting capabilities of industrial, municipal and military fire departments. CHEMGUARD designs and manufactures self-contained single-, dual- and triple-tote foam trailers for a wide range of demanding fire suppression and vapor control applications.

Designed and developed for extreme incident flexibility, CHEMGUARD mobile foam trailers are offered with a wide variety of options including variable inlet connections, foam concentrate pumps and piping, proportioning equipment and self-educing nozzles. Plus, a full range of direct-injection foam trailers and foam tenders are also available.

The options give users the ability to custom design a unit to fit the specific needs of their department or facility. When those needs require a large surplus of fire suppression foam, tote trailers offer a unique mix of agility and performance to consistently provide storage, transport and deployment in the harshest operating conditions.

Foam trailers are economical, extremely durable and corrosion resistant.

## **APPLICATIONS FOR FOAM TRAILERS**

Associated tank farms  
Chemical processing plants  
Industrial fire brigades  
Marine terminals  
Municipal fire departments  
Refineries  
Truck and railcar unloading facilities  
Other spill hazards

### **The final authority in fire protection**

A global leader in foam fire protection solutions, CHEMGUARD offers engineering and design expertise, quality manufacturing and unmatched customer support. CHEMGUARD foam agents and hardware can meet your fire suppression needs for a broad range of applications.

### **A Passion for Protection**

Dedicated customer support. Extensive product portfolio. Engineering excellence. Trusted, proven brands. Tyco Fire Protection Products offers all of these attributes, plus a passion for protection. It's what drives us to create solutions to help safeguard what matters most — your valued people, property and business.
