Chemguard Foam System Design and Application Training Seminar Announcement

All of us at Chemguard are pleased to announce the upcoming Foam System Design and Application Training Seminar. The three-day seminar provides sprinkler contractors and design engineers with state-of-the-art foam system training. With a combination of classroom and hands-on activities, the seminar includes live fire demonstrations at Chemguard's Mansfield, Texas, headquarters. Classes will begin at 8:00 am Tuesday May 19, 2009 and will continue through the end of the day on Thursday May 21, 2009.

Topics covered include:

- Foam System Design / Application
- Foam Agents / Testing Procedures
- Bladder Tank System Fill & Test
- UL Fire Testing / High-X Foam Demonstrations

For those with NICET (National Institute for Certification of Engineering Technicians), the submittal of your completion will earn 24 continuing education points.

Please complete and return the following application by May 1 to mboyle@chemguard.com. Classes are limited to 30 students, so reserve your seat early.

Please don't hesitate to contact Matt Boyle at (817) 473-9964 x207 or by email at mboyle@chemguard.com with any questions.
